I worked as a designer at innovator club of our institute. i designed posters related to events for social media marketing.

SKILLS

PERSONAL PROJECTS

Portfolio

- I created a personal portfolio website using ReactJS. This is a visually appealing and interactive web application designed to showcase an individual's skills, experiences, and projects. It is also fully responsive, with smooth animation effects.

Text to Image Generator

- i've created a text to image generator web app where one can specify the prompt and output will be image related to that prompt. Here i've used Reactjs for frontend and the OpenAI API in backend to create image. Also we can generate an image in 3 different sizes.

Google Extension

- I've created A Random Quote Generator google extension using HTML, CSS and JavaScript. We can also listen the generated quote, Copy to clipboard and can directly post to Twitter as well.

ACHIEVEMENTS

- Secured 1st rank in 3rd Semester of B.E at institute level.
- Solved 200+ questions on leetcode.com username: mansi_j22
- 2 star coder at codechef.com username: mansii2213
- 5 star gold level badge in SQL at hackerank.com username: jayswalmansi20
